

COMMERCIAL CONFIDENTIAL

Professional Services Rate Card

Software Engineering & Technology Delivery

Commercial framework	Definition
Effective	2026
Currency	EUR (€)
Rate Type	Indicative Commercial Ranges
Commercial Basis	Subject to engagement requirements
Taxes	Exclusive of VAT and applicable taxes
Final Pricing	Confirmed following technical and commercial review

Important interpretation of rate ranges

A published range does not entitle a client to its lowest value. A range such as €60-€75/hour defines an indicative commercial framework. The final rate is selected following technical and commercial review and, in exceptional circumstances, may be confirmed outside the range.

Complexity distilled. Technology delivered.

1. COMMERCIAL OVERVIEW

DISTILLOGIC TECHNOLOGIES provides software engineering and technology delivery services through flexible engagement models designed around project scope, technical requirements and delivery responsibility.

The rates in this document provide an indicative commercial framework for Time & Materials, dedicated engineering capacity and specialist technical engagements. Final terms are confirmed after review of scope, technologies, seniority, responsibility, duration, team composition, location, mobilisation and contractual requirements.

PRICING FLEXIBILITY

The rates presented in this document are indicative commercial ranges and are intended to provide a general pricing framework.

Final pricing is determined on an engagement-by-engagement basis and may vary according to factors including:

- scope and technical complexity
- technologies and specialist expertise required
- seniority and experience
- engagement duration
- number of resources and team composition
- committed volume of work
- delivery model
- mobilisation timeline
- remote, hybrid or onsite requirements
- delivery responsibility
- project and contractual risk
- service levels and support coverage
- payment terms
- procurement requirements
- long-term or strategic partnership arrangements

DISTILLOGIC may provide preferential or blended commercial rates for longer-term commitments, larger engineering teams, guaranteed delivery volumes, framework agreements or strategically structured partnerships.

Highly specialised, urgent, short-duration or higher-risk requirements may be priced above the standard indicative ranges.

All rates remain subject to final confirmation following technical and commercial review of the specific requirement.

STANDARD INDICATIVE RANGE

STANDARD INDICATIVE RANGE	
LONG TERM / LARGE TEAM / FRAMEWORK	URGENT / SPECIALIST / HIGH RISK
Preferential or blended commercial terms	Premium commercial terms

2. SOFTWARE ENGINEERING

Role / Seniority	Hourly Rate	Daily Rate
Junior Software Engineer	€35-45	€280-360
Mid-Level Software Engineer	€45-60	€360-480
Senior Software Engineer	€60-75	€480-600
Technical Lead	€75-90	€600-720
Solution / Software Architect	€90-110	€720-880

Typical Capabilities

Java · Kotlin · Spring Boot · C# · .NET · Node.js · TypeScript · Python · React · Angular · Next.js · Vue.js · Microservices · REST APIs · Enterprise Applications

3. MOBILE ENGINEERING

Role / Seniority	Hourly Rate	Daily Rate
Mid-Level Mobile Engineer	€50-65	€400-520
Senior Mobile Engineer	€65-80	€520-640
Mobile Technical Lead	€75-90	€600-720

Typical Capabilities

iOS · Swift · Android · Kotlin · Flutter · React Native · Mobile APIs · Enterprise Mobile Applications

4. CLOUD, DEVOPS & PLATFORM ENGINEERING

Role / Seniority	Hourly Rate	Daily Rate
Cloud / DevOps Engineer	€55-70	€440-560
Senior Cloud / DevOps Engineer	€70-90	€560-720
Platform / SRE Engineer	€70-90	€560-720
Cloud / Platform Architect	€90-115	€720-920

Typical Capabilities

Microsoft Azure · AWS · Google Cloud · Docker · Kubernetes · Terraform · CI/CD · Infrastructure as Code · Monitoring · Observability · Platform Engineering

5. DATA ENGINEERING & ANALYTICS

Role / Seniority	Hourly Rate	Daily Rate
Data Analyst / BI Specialist	€45-60	€360-480
Data Engineer	€55-70	€440-560
Senior Data Engineer	€70-90	€560-720
Senior Data / Analytics Specialist	€70-90	€560-720
Data Architect	€85-105	€680-840

Typical Capabilities

Python · SQL · ETL / ELT · Data Pipelines · Databricks · Spark · Airflow · dbt · Snowflake · Power BI · Data Warehousing · Analytics

6. AI & MACHINE LEARNING

Role / Seniority	Hourly Rate	Daily Rate
AI / ML Engineer	€60-80	€480-640
Senior AI / ML Engineer	€80-100	€640-800
Senior LLM / Generative AI Specialist	€85-110	€680-880
AI Solution Architect	€95-120	€760-960

Typical Capabilities

Machine Learning · LLM Integration · Retrieval-Augmented Generation · AI Agents · NLP · Predictive Analytics · Document Intelligence · AI-Enabled Applications

7. QUALITY ENGINEERING

Role / Seniority	Hourly Rate	Daily Rate
Software Tester / Manual QA	€35-45	€280-360
QA Automation Engineer	€45-60	€360-480
Senior QA Automation Engineer	€55-70	€440-560
QA Lead / Test Architect	€65-80	€520-640

Typical Capabilities

Test Strategy · API Testing · Integration Testing · End-to-End Testing · Regression Automation · Performance Testing · Playwright · Cypress · Selenium · Postman · JMeter · k6

8. SYSTEMS INTEGRATION

Role / Seniority	Hourly Rate	Daily Rate
Integration Engineer	€55-70	€440-560
Senior Integration Engineer	€70-85	€560-680
Integration Architect	€85-110	€680-880

Typical Capabilities

REST · GraphQL · gRPC · Kafka · RabbitMQ · OAuth 2.0 · OpenID Connect · Enterprise APIs · Middleware · Event-Driven Architecture · Third-Party Integrations

9. DELIVERY & PROJECT MANAGEMENT

Role / Seniority	Hourly Rate	Daily Rate
Business Analyst	€45-60	€360-480
Senior Business Analyst	€55-70	€440-560
Project Manager	€55-75	€440-600
Senior Project / Delivery Manager	€70-90	€560-720
Product Owner	€55-75	€440-600

Typical Capabilities

Delivery-management requirements may also be included within a complete project or engineering-squad commercial model.

10. APPLICATION MANAGEMENT

Role / Seniority	Hourly Rate	Daily Rate
Application Support L2	€35-50	€280-400
Application Support L3	€50-70	€400-560
Senior Application Engineer	€60-75	€480-600
Application Technical Lead	€70-90	€560-720

Typical Capabilities

Application Management may alternatively use a monthly managed-service arrangement based on capacity, service window and agreed service levels.

11. UI / UX & PRODUCT DESIGN

Role / Seniority	Hourly Rate	Daily Rate
UI / UX Designer	€40-55	€320-440
Senior Product / UX Designer	€55-70	€440-560
Lead Product Designer	€65-80	€520-640

Typical Capabilities

User research · Information architecture · Interaction design · Design systems · Prototyping · Product design

12. ENGAGEMENT MODELS

The indicative rates support several commercial structures.

- Time & Materials - billing according to approved engineering effort
- Dedicated Engineering Capacity - reserved capacity for an agreed period
- Dedicated Team / Engineering Squad - cross-functional team configured around requirements
- Work Package Delivery - defined technical scope delivered by DISTILLOGIC
- Fixed Scope / Fixed Price - where requirements and acceptance criteria are sufficiently defined
- Application Management - ongoing maintenance, support and enhancement

13. DAILY RATE DEFINITION

Unless otherwise agreed, one Professional Day represents up to eight working hours. Daily rates are derived from the applicable professional-services rate.

14. DEDICATED TEAMS

Dedicated team pricing is prepared for the actual composition and may use a blended team rate or monthly fee.

- Solution Architect or Technical Lead
- Backend, Frontend, Full-Stack or Mobile Engineers
- QA and DevOps / Cloud Engineers
- Data or AI / ML Engineers
- Business Analyst
- Project / Delivery Manager

15. PROJECT-BASED PRICING

Complete projects and defined work packages may use Fixed Price, Milestone-Based Pricing, Time & Materials, Capped T&M or Monthly Team Pricing. Project pricing follows technical review and is not determined solely from individual resource rates.

16. COMMERCIAL ADJUSTMENTS

Final commercial rates may vary according to the characteristics of each engagement.

Engagement Duration

Longer-term committed engagements may qualify for preferential commercial terms.

Team Size & Volume

Larger dedicated teams, committed capacity and guaranteed delivery volumes may support blended or volume-based pricing.

Specialist Expertise

Highly specialised or scarce technical skills may command premium rates.

Mobilisation

Urgent or accelerated mobilisation may affect commercial pricing.

Location

Onsite, hybrid, international and travel-intensive assignments may require additional commercial arrangements.

Delivery Responsibility

Engagements where DISTILLOGIC assumes broader responsibility for architecture, project management, delivery governance, quality or production readiness may carry different pricing from individual resource augmentation.

Payment Terms

Extended payment periods may affect final commercial pricing where they create material financing exposure.

Contractual Risk

Unusual liability, service-level, security, regulatory or contractual requirements may be reflected in the final commercial proposal.

Strategic Partnerships

Framework agreements, long-term commitments and strategic delivery partnerships may qualify for separately negotiated commercial terms.

17. ONSITE & TRAVEL

Unless expressly included, rates exclude flights, accommodation, ground transportation, visas, travel expenses, subsistence and other onsite costs. Travel arrangements and treatment of travel time are agreed before mobilisation.

18. NON-STANDARD WORKING HOURS

Weekend, public-holiday, night, emergency-response and on-call work is subject to separate agreement.

19. COMMERCIAL TERMS

Currency: EUR (€). Taxes: exclusive of VAT and applicable taxes. Standard billing: monthly unless agreed otherwise. T&M invoices may be supported by approved timesheets or equivalent delivery records. Payment terms are defined in the applicable Proposal, SOW, MSA or Purchase Order. Quoted rates are normally valid for 30 calendar days, subject to availability and confirmation of scope.

20. RATE REVIEW

Long-term rates may be reviewed for contract duration, market conditions, material scope change, increased service requirements or resource seniority changes. Adjustments are discussed and agreed under the applicable commercial agreement.

21. RESOURCE AVAILABILITY

Rate indication does not confirm resource availability. Specific profiles, start dates and terms are confirmed during proposal and mobilisation.

22. CONFIDENTIALITY

This Rate Card contains commercial information belonging to DISTILLOGIC TECHNOLOGIES. It is provided solely for the recipient's internal evaluation of a potential engagement and must not be distributed to third parties without prior written consent.
